

# Synaptic Gardens

**Band name:** Synaptic Gardens

**Genre:** electronic /electro-acoustic

**Members:** Matthew Tucker (Malus Mons) - electronic rhythms, synths & guitar  
Wesley Davis (bios+a+ic) - effects processed trumpet / loops

**Synaptic Gardens** is a duo featuring musicians, Matthew Tucker (Malus Mons) & Wesley Davis (bios+a+ic), which was formed in the summer of 2023. They make original music using elements of techno, ambient, hip-hop, and IDM, finding a harmonious blend of organic and electronic elements, a fusion of natural and technological sounds. The music is accessible ear candy, creating a unique atmosphere with a warm, familiar vibe to the venues which they perform.

**Malus Mons** is a solo project of Matthew Tucker. Using modern samplers, synthesizers and electric guitar he weaves complex but rooted beats with influences from Duke Ellington to Aphex Twin and everything in between. Improvisation is at the heart of any Malus Mons performance, nothing is ever played the same twice. He currently plays twice a month at D9 Brewery in Hendersonville NC.

**bios+a+ic** is a musician, sound artist, performer, dj, and producer who creates soundscapes via construction and deconstruction of multi-layered analog and digital textures. He embraces new sounds from numerous genres to compliment his lush signature trumpet style. He has performed hundreds of shows and has shared the stage with God is an Astronaut (IRE), SNOG (AU), Not Breathing (AZ), Talib Kwali (NY), ARIADNE (NY), Murs & The Grouch (CA), Metric (CA) and others.
